WHAT IS SENSA?

Sensa is a granite surface by Cosentino, a high-quality surface that offers such reliable performance that it comes with a 15-year certified guarantee.

We travelled all the way to Brazil and India to find the most beautiful stone that Nature can create. This stone was chosen following strict criteria of aesthetic excellence that resulted in unique, elegant surfaces with an exotic, yet subtle, touch. Unique. The adjective is well-chosen.

Every Sensa slab is different from the rest because each surface has exceptional veining that is found in no other.

A product idea for demanding customers who require a material that is resistant to scratches and stains and that offers outstanding performance over time.

THE ADVANTAGES OF SENSA

The chance to share all the knowledge that Cosentino has accumulated over decades. A return to the origins of the brand whose story began with the extraction of the first slab of the prestigious Macael marble (Almería).

This knowledge is now reflected in the granite that Cosentino produces in its Latina Vitoria factory in Brazil.

Excellent stain
resistance.

No special
maintenance required.

Certified and approved for direct
contact with food.

Unique designs created by Nature
herself.

High performance and quality
with a guarantee from
Cosentino.

HOW SENSEA IS TREATED

Cosentino subjects the granite to an invisible long-lasting treatment, capable of chemically incorporating itself into the material while still letting it breathe. This technology increases its powerful natural properties and prolongs its useful life.

The process alters the surface tension of the granite, causing the material itself to prevent liquids such as water, coffee or oil from penetrating it.

In addition, Sensa is, thanks to the material's own natural characteristics, able to retain its colour and protect itself from alterations caused by sunlight and UV radiation.
